★ OBJECTIVES

Full-Stack Software Developer with expertise in React, Next.js, TypeScript, Node.js, Express.js, MongoDB, and PostgreSQL. Experienced in designing and building scalable, production-ready web applications with RESTful APIs, AI-powered features, and Docker-based deployment workflows using Vercel and Railway. Delivered 6+ end-to-end projects, including e-commerce platforms, social networking applications, and Progressive Web Apps (PWAs). Proficient in implementing secure authentication, Stripe payment integration, responsive user interfaces with Tailwind CSS, and modern full-stack development best practices with a strong focus on performance, maintainability, and user experience.

★ Technical Skills

| Category     | Technologies                                                              |
|--------------|---------------------------------------------------------------------------|
| Frontend     | HTML5, CSS3, Tailwind, Bootstrap, JavaScript, React.js,Next.js,TypeScript |
| Backend      | Node.js, Python,Express.js, PHP, REST APIs,Appwrite                       |
| Databases    | MongoDB, Mongoose, PostgreSQL, MySQL                                      |
| Languages    | JavaScript, TypeScript, Java, Python, C++                                 |
| Design Tools | Figma, Adobe Photoshop, Illustrator                                       |
| Other        | Git, GitHub, Docker,Vercel, Basic                                         |

★ Selected Project

**Campus Hub – Campus communication, reimagined**  
Production-ready Q&A platform organized by department and location, with AI-assisted answers to common campus questions. Built with role-based content navigation and a responsive UI deployed on Vercel.  
Tech: React, Next.js, Node.js, MongoDB, Tailwind CSS  
[link](#)

**Cgram – Your social hub**  
Social media platform with user profiles, group spaces, and real-time chat, plus AI integrations for caption generation and content guidance. Includes an admin settings panel for platform moderation.  
Tech: React, Next.js, Node.js, MongoDB  
[link](#)

★ Experience

- Web Development Experience
- Developed and deployed 10+ full-stack web applications using React, Next.js, Node.js, Express.js, NestJS, PHP, Laravel, MongoDB, PostgreSQL, and MySQL.
  - Built scalable REST APIs with authentication, role-based access, CRUD operations, database integration, and third-party services including Stripe and AI-powered features.
  - Delivered applications including e-commerce platforms, job portals, social platforms, restaurant, clinic, voting, and student management systems with responsive UI using Tailwind CSS, Bootstrap, HTML5, CSS3, and JavaScript.
  - Deployed applications with Docker, Vercel, Railway, and live hosting while managing source code with Git/ GitHub and following modern development workflows.
